2003 LECTURE SERIES

Presented By: Science & Technology Education Program, Sigma Xi, Livermore Chapter No. 815 and Lawrence Livermore National Laboratory

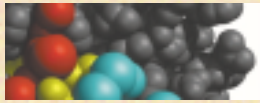
Science on Saturday is a five-week series of free lectures and demonstrations targeted for middle and high school students. Presentations are aligned with the California Science Standards. Topics are selected from the forefront of science and technology research in a variety of disciplines.

The program runs from March 15th through April 12th:

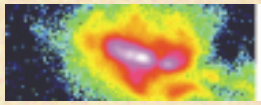
March 15, 2003 — **Harnessing Light for Medicine:** ***Creating New Biophotonics Tools for Doctors***

March 22, 2003 — **Catching the Bad Guys:** ***Forensic Science and its Application to National Security***

March 29, 2003 — **How Astronomy Has Influenced Ancient Cultures:** ***The Study of Archeoastronomy***



April 5, 2003 — **Building Molecules to Kill Cancer:** ***Radiation Therapy***



April 12, 2003 — **BRIGHT Lights, BIG City:** ***How the Most Massive Galaxies and Black Holes Live Together***

All lectures are held at the Amador Theater located at 1155 Santa Rita Road, Pleasanton, beginning at 9:30 a.m. and ending at 11:15 a.m. Seating is on a first come first serve basis and there is no pre-registration. Directions and map are available on the SOS website: http://education.llnl.gov/sos.
